## DEVELOPMENT STARTS ON NEW JASPER PARK

MAGNIFICENT NEW NATIONAL PARK IN YELLOW-  
HEAD PRACTICALLY OPEN TO TOURISTS NEXT  
SUMMER—PARK COMMISSIONER STARTS WORK

Jasper Park, the magnificent new Dominion park in the Yellowhead Park, in which is to be located the Banff of the Grand Trunk Pacific Railway, and in which is located the new peak in the Canadian Rockies, namely, Mount Robson, will be practically available to tourists the coming summer, owing to the fact that the Grand Trunk Pacific has been able to complete the steel of their line to Prairie Creek, and will probably extend it on to the Athabasca river, in the summer.

Although it will be another year before the Grand Trunk Pacific will take steps to establish their hotels and resorts throughout the park, it will be a very easy matter for tourists to reach the park over the G.T.P. line, since it is probable that a passenger service will be installed right through to the end of the steel next summer. Prairie Creek is 35 miles from the point where the G.T.P. crosses the Athabasca river, only a short distance from the eastern boundary of the Jasper Park.

**Alpine Club to Camp There.**  
The opening of tourist travel through Edmonton to this new resort of camps and mountain climbers will be marked the coming summer by the annual camp of the Alpine Club of Canada, which is to be held this year in the new park. It is understood that arrangements are now under way for this camp, which has for years been held at Banff, and which is this year being moved to the Yellowhead Park in consideration of the importance of the opening of the park.

The Alpine Club of Canada includes some of the most prominent citizens of the Dominion, and their meeting in the Yellowhead Park next summer will result in the bringing of a large number of tourists to Edmonton. There are several members of the club in Edmonton who will probably avail themselves of the opportunity of attending the first camp of the club to be held in the Jasper Park.

**Development Work Commences.**  
Active development work within the park, in preparation for the throwing open to the public, will be commenced this spring by the Dominion Parks minister, Mr. Howard Douglas, of Edmonton, who is the most enthusiastic of the possibilities of the new park as a drawing card for an immense tourist trade. Mr. Douglas has made a personal study of the natural features of the park, and is preparing to devote a great deal of his attention the coming year to its development.

## How Edmonton's Assessment Has Increased During Past Five Years

The table given below illustrates the increase in Edmonton's assessment since the city's incorporation in 1905. In 1905, when the total population of the city was 9,200, the assessment on all forms of property in Edmonton was \$65,000. In 1910, when the population of the city had increased to a total estimated at 25,000, the assessment on all forms of property for municipal purposes, was \$275,620. The assessment per capita was in 1905, \$7.05, and had increased in 1910 to \$11.05, the maximum per capita assessment in the city's history. In 1910 the per capita assessment was \$10.05. As the city's borrowing powers are limited in the charter to twenty per cent. on the municipal assessment, Edmonton was empowered, under the assessment of \$65,000 in 1905, to issue debentures for general purposes to the extent of \$13,000. Upon the assessment of \$275,620 in 1910, the city had power to incur a debenture liability for general purposes to the amount of \$55,124. It had actually incurred, on October 31st, a net debenture liability for these purposes of \$10,934.55. In March, 1908, an additional area of approximately 4,500 acres was taken into the city limits, and this is exempt from general taxation until 1912. When this additional territory becomes available for municipal purposes, the city's borrowing powers will be very materially increased. In 1910 the total assessment on all forms of property within the city limits was \$38,105.10.

## GROWTH OF EDMONTON'S POPULATION AND MUNICIPAL ASSESSMENT

Year.	Municipal Assessment	Population	Assessment Per Capita
1905	\$65,000.00	9,200	\$7.20
1906	174,078.79	14,000	12.71
1907	21,985.70	18,000	12.21
1908	22,303.77	20,000	11.15
1909	23,619.47	23,000	10.27
1910	275,620.10	25,000	11.05

### Beck Memorial.

Toronto, Jan. 21.—Over two hundred delegates representing various patriotic organizations in Ontario waited on Sir James Whitney today to ask for the erection of a suitable memorial to the soldiers who fell in the war of 1912.

## ELIMINATE INDIANS FROM THE FAIRS

Dept. of Indian Affairs Makes  
Request—Edmonton First  
to Comply

An effort is being made by the department of Indian affairs at Ottawa to have the Indian parade feature of Western exhibitions eliminated. This morning Secretary Harrison of the Edmonton exhibition received a letter from that department, asking their co-operation in the elimination of the Indian as an attraction at the annual Western exhibitions.

To the Edmonton Exhibition association, is due the credit of being the first Western association to eliminate the Indian as an attraction at their fair. Three years ago, complying with the request of missionaries and ministers in the west, the Edmonton association cut out the dancing feature of the Indian show at the exhibition. The following year they eliminated the Indian feature altogether, and have adopted the policy that the Indians shall not again be included as a feature. The protest that the bringing of the Indians from the reserves to the exhibitions was demoralizing to the Indians, was respected by the Edmonton association, first among all other associations.

No other association in the west has yet taken such action. Calgary and other cities in the west still make the Indian a big feature at the fair.

## CITIZENS SHOULD SELECT THE SITE

Board of Trade Asks for Pre-  
bids on Location of East  
Bridge

In view of the fact that opposition to the site selected by the city council for the east end bridge, has arisen, and that that opposition may result in defeating the by-law for the appropriation for the bridge, which is to be voted on Thursday, the council of the board of trade passed a resolution yesterday afternoon, asking the council to take a plebiscite on the question of a site, on Thursday.

The council of the board has taken this step not with any intention of interfering with the city council's selection, but with a view to obtaining any possibility of the defeat of the money by-law for the bridge. If a plebiscite is taken, there will be no necessity for those that are not satisfied with the site selected, to vote against the money by-law for the bridge. If a plebiscite is taken, there will be no necessity for those that are not satisfied with the site selected, to vote against the money by-law for the bridge.

The site selected by the council for the bridge is at the foot of Major street. Another site which has been proposed is at the foot of River street. Mayor Armstrong has decided to approach the members of the city council to ascertain their views in the matter, and if they are all in favor of the holding of a plebiscite his worship will call a special meeting of the council on Monday morning to decide the question.

"I do not want to see the by-law defeated on any account," he said to the Capital this morning.

## LARGE OFFER FOR CHURCH CORNER

Great West Land Co. Offer \$250  
Foot for First Presbyterian  
Church Property

An offer of \$250 per foot, for the 130 feet of the First Presbyterian Church property at the corner of Third and Asper, was made this morning to the church managers by the Great West Land Company. The offer will be considered by the management at a meeting to be held on Monday.

This is the biggest offer yet which has been made for this desirable corner of business property, and is a record price for property in that district. The offer was made on behalf of outside investors.

## TELEGRAPHIC NEWS

Happenings in the World at  
Large Boiled Down for Busy  
Readers

ALBANY.

Contractor Wins Suit.

Calgary, Jan. 21.—The judgment in the city hall case was given today, and in it Mr. Justice Scott awards a complete and sweeping victory to Wm. Davey, the contractor. The judgment consists of eleven pages of typewritten copy giving reasons and explanations of the finding. His Lordship sums up his conclusions stating that for the reasons given, he holds that the city wrongfully dismissed Mr. Davey, and is therefore liable for the full value of the work done, the material supplied, and such damages as the plaintiff has sustained by the city retaining possession of his building plan.

Calgary Street Railway.

Calgary, Jan. 21.—The annual report of the Street Railway has been handed to the city commissioners by Supt. McNicoll. The figures show a profit of 41.1 per cent. for net earnings over the fixed charges. The net earnings over operating expenses were 20 per cent. The street railway employees are now receiving a bonus, which for December amounted to over \$5 each.

U. F. A. Office.

Calgary, Jan. 21.—The United Farmers of Alberta decided at a meeting of the directors this morning to establish a permanent office in this city at an early date, and to make this the headquarters for the organization.

DOMINION.

Toronto, Jan. 21.—Over two hundred delegates, representing various patriotic organizations in Ontario, waited on Sir James Whitney today to ask for the erection of a suitable memorial to the soldiers who fell in the war of 1912.

Packers Demanded.

Ottawa, Jan. 21.—In the house yesterday, Mr. Barnard, Victoria, B.C., drew the attention of the government to the situation of the fishermen on the Pacific coast, more particularly on the coast of Vancouver Island. He said that the American fishermen did not make occasional raids, but their fisheries had become a systematic business. Mr. Broderick said that while he was at liberty to give the department of Marine and Fisheries was preparing to take the necessary steps to adequately protect the fisheries of the British Columbia coast.

Election Before Census.

Winnipeg, Man., Jan. 21.—Hon. Robert Borden, in an interview expressed the opinion that the Laurier government is planning an appeal to the country in advance of the census. The principal interest of the government takes in the reciprocity arrangements, he says, is the hope that out of them may grow a general feeling for calling a general election before the census can be completed and thereby further deprive Western Canada for the next four or five years of its legal and rightful representation in the Canadian parliament.

Whole Family Burned.

Toronto, Jan. 21.—Five persons were burned to death in a fire which consumed the residence of Percy C. Brooks, janitor and manager of the Fairbanks-Morse Canadian Manufacturing company, at 435 Indian road, shortly after 1 o'clock this morning.

The victims were: Mrs. Brooks, her three boys, Percy, Jr., aged 7; George, aged 4; and Teddy, aged 2; and a male servant whose name is unknown.

Navy Recruiting Officers.

Ottawa, Jan. 21.—In Senate, Hon. Mr. Laurier was told that the naval department proposed to post advertisements for the purpose of informing persons who desire to enter the navy of a means by which they can do so.

Postmasters of several of the largest cities will be recruiting officers for the navy. It is expected that most of the applications will be made direct to the recruiting officers at the naval stations at Halifax or Esquimaux and therefore the amount of patronage to postmasters will be small.

Patrons in Russia.

St. Petersburg, Jan. 21.—An unusually violent storm swept the Caspian Sea today. The water undermined the walls here and flooded a portion of the town, and Lake Nury overflowed its banks, damaging the adjacent property.

FOREIGN.

London, (C.A.P.) Jan. 21.—The Morning Post, discussing Imperial defence as a matter for the forthcoming imperial conference, says that Canada is intent on the problem of territorial development and has a profound horror of the prospect of war, being so pacific, in fact, as to show she cannot be a greater power. She will be much relieved to learn that the Imperial policy is to avoid any war not actually endangering the empire.

EVENTS TONIGHT.

Cecil Hotel—Annual meeting and banquet of the Royal Caledonian Curling club of Canada.  
Empire Theatre—Summers Stock company in "David Harum."  
Lyceum Theatre—Hunt's Musical Comedy company in "The Duke of Dundas."  
Curling—Draws at Granite, City and Strathcona rinks.  
Hockey—Intercollegiate league of Edmonton High school vs. Strathcona Collegiate, at the Strathcona rink.

## CITY'S CONSTRUCTION PROGRAM PROVIDES FOR AN EXPENDITURE OF NEARLY \$900,000 THIS YEAR

### CHIEF DAVIDSON TO RESIGN ON MONDAY

Fire Chief Davidson will hand in his resignation to the city commissioners on Monday morning. It is understood that he has been offered a much larger salary than he is receiving from the city by the British Columbia company, and his resignation will take effect on March 1.

## POWER HOUSE ESTIMATES READY

Several Alternative Schemes for  
Enlarging Plant Will Be Con-  
sidered by Council

Alternative estimates for the power house department expenditures of the present financial year, contain alternative plans for the installation of new machinery, and the expenditure may vary from \$1,307,500 to \$3,875,000, according to the plans accepted by the city commissioners. For the 2000 kilowatt alternator alone, which will increase the capacity of the lighting and power plant, and also of the street railway department, the estimates vary from \$80,000 to \$100,000. Four alternative engines and alternators are estimated upon, giving this wide range of cost.

Four schemes are submitted in connection with the new 6000 g.p.s. pump, and the estimates of cost vary from \$5,000 to \$75,000 of the pumping plant alone.

Apart from machinery, the estimated expenditures of the power house department for the year are \$19,830. This sum will cover the cost of a \$5000 addition to the boiler house, the installation of a motor generator \$12,000, which will probably be located on the land on which the car barns stand. The substitution will cost an inconsiderable sum. The motor generator will be driven by the new 2000 kilowatt alternator, and will, it is anticipated supply adequate power to the street railway department for some time to come.

\$500 is provided in the estimates for improving and seeding the power house grounds.

## ANNUAL MEETING OF BOARD OF TRADE

Will Be Held Tuesday When  
Officers for Year Will Be  
Elected

F. M. Morgan, present vice-president of the board of trade, will be proposed for president at the annual meeting of the board of trade, which will be held at 4 o'clock on Tuesday, W. H. Clarke will be proposed for vice-president. President McGeorge and Secretary Fisher will present their annual addresses. A large attendance of members is expected as there are several matters of importance to come up.

The resolution endorsing the Georgian Bay canal project, which originated in the Canadian associated boards of trade, at Ottawa, will come up for consideration at the meeting. On this matter, the board have hitherto taken the stand that there are other government projects of more vital interest to the west, which should be completed before the Georgian Bay project is taken up. It is likely that the board will decline to offer any endorsement of the resolution. They feel that the Grand Trunk Pacific and the Hudson Bay road, and the navigation of the Saskatchewan river, should be completed before the other project is thought of.

The death occurred yesterday of Mrs. Robert Allan. Mrs. Allan has lived in the Horse Hills district for a number of years and her death, although not unexpected, is a cause of grief to her many friends in the neighborhood. At the time of her death the deceased was 74 years of age and leaves a large family to mourn her loss.

## Estimated Extension of Total \$281,000-- Jasper to 24th St.-- to Street Railway

The expenditure of the engineering department during the coming season is estimated to reach a total of \$864,250, as compared with an expenditure in the department last year of \$730,000. Included in the above total are the sums expended in street railway construction, and in water main construction, which will be charged up at the end of the year to the departments concerned.

On street railway construction during the year the estimated expenditure is \$500,000, as compared with \$85,453 last year. This season there will be no new construction. The uncompleted portion of last year's construction was provided for in last year's estimate, out of which there is a large unexpended balance. The sums expended in street railway construction will be provided for this year, and Jasper avenue will be carried through from Sixteenth street to Twenty-fourth. From the car barns on Syndicate, double track will be carried three blocks north of the Boulevard.

The largest individual item in the estimates is the sum of \$281,000 for sewer construction. Of this amount in the neighborhood of \$200,000 will be required for the Rat Creek tunnel sewer. Engineer Latorelli submits three alternative plans for the construction of this sewer.

The first provides that all sewage and storm water be carried through a 2 to 6 foot 6 inch tunnel sewer from Rat Creek to the river, east of the penitentiary property; the second that sanitary sewage be carried down the sewer to the river, while storm water carried down Rat Creek. The third plan is similar to the second, except that the storm water and sanitary sewage are treated by a combined system, each and separated by an electrically operated Sanocycle.

Engineer Potter recommended the first plan, and laid emphasis on the value of the water, which is carried down Rat Creek which might be reclaimed. Engineer Latorelli holds the view that this value would not be as high as Potter supposed, and that in any event, it would be made regarding cost.

## FROM A HOME OF CRUELTY TO A HOME OF HAPPINESS

SIX-YEAR-OLD LAD, AIDED BY DEPARTMENT OF NEG-  
LECTED CHILDREN—GRANDFATHER'S KINDNESS  
REPLACES CRUELTY OF STEP-MOTHER

(This is the fifth of a series of stories by the Capital on the work of the Superintendent of Neglected Children.)

Lying shivering and half starved, beneath a pile of old straw, in a wretched outhouse on a homestead in the Vegreville district, to where he had crawled after being cruelly beaten by his stepmother, a lad of scarcely six years, was found one crisp day last winter, by a Mounted Policeman from Vegreville, who had been directed to the place by neighbors who told him of the plight of the boy. The lad had had little nourishment for many days, the marks of his step-mother's blows were still on his body, and his clothes were almost in rags. Crouching beneath his inefficient covering from the cold and snow, the boy was pitifully and was found to be in a terrible condition.

This was nearly a year ago. Today the boy is living with wealthy grandparents in Montreal, and is attending a boy's college. This quick jump from poverty to prosperity, from misery to happiness, was accomplished through the medium of the department of the superintendent of neglected children, to whom the boy was turned over by the mounted policeman. The story of his discovery on the step-mother's homestead, and his restoration to happiness, is one of the interesting stories that the superintendent has to tell.

The lad's name is Paul. He is gifted with quick wit that is gradually developing under the careful training of the eastern college. He is of French descent.

Beaten by Stepmother.  
With Paul, it was the old, old story of the step-mother who beat him, and the father who did not care. How he got into the custody of the cruel step-

mother, Paul does not remember. When he was only a few years old, he was brought from Montreal to Manitoba and left in the care of a step-mother. They afterwards took up a homestead in the Vegreville district. Here Paul, as he grew older, was subjected to the most violent cruelty. He

(Continued on Page Eight.)

Through the Medium of the Dept. of Neglected Children, this 6-year-old lad, Paul, who was cruelly beaten by a Step-mother, was Restored to a Wealthy Grandparent in Montreal.

**MAYOR ARMSTRONG** In his declaration that the ratepayers **TAKES THE ONLY** should first be given an opportunity to **LOGICAL COURSE** vote on a money bylaw to provide for a municipal gas plant, before being asked to ratify or reject an agreement with a private company for a gas franchise, Mayor Armstrong takes the only reasonable and logical ground.

Notwithstanding that it has never been realized on, the franchise to supply gas is a tangible asset. It is at present the undisputed property of the city. To hand it over to a corporation would be the same, in effect, as handing to the corporation an equivalent amount of money. Before undertaking any such course, the ratepayers should have the opportunity to say whether or not the city should reserve this asset to the city and undertake the manufacture of gas as a municipal enterprise.

Should the ratepayers decide that they do not desire to undertake a municipal gas plant, the logical course would then be to advertise for tenders, open to any gas-manufacturing corporation, requiring applicants to state upon what terms they were willing to supply gas to citizens of Edmonton in return for receiving the franchise.

**FELS' IDEA OF PUBLICITY LITERATURE** Joseph Fels says to raise civic revenue by means of licenses is to fine men for doing something. The interpretation is good, and it can be extended to floor-space tax, income tax and poll tax.

The income tax which Edmonton collected for 1910 is the last income tax that will be collected in this city. The poll tax which was collected in 1909 was probably the last poll tax that will be collected in this city. The floor-space tax which Edmonton will collect in 1911 will probably be the last floor-space tax which the city will collect. The licenses exacted of real estate men, financial institutions of various kinds, cigar stores, pool rooms, restaurants, etc., will probably disappear at about the same time as the floor space tax.

With the single exception of Vancouver, Edmonton places smaller taxes on industry, energy and enterprise than any other city in the Dominion of Canada, and Edmonton is tending more rapidly toward the place where all such fines will be abolished than any other city on the North American continent.

This fact could be used to great advantage in the publicity literature of the city of Edmonton. Handled properly it would cost nothing to get for it a circulation mounting into the millions.

**A FASCINATING CIRCULATION PRESENTED BY THE CANADIAN PACIFIC** The fact that the Canadian Pacific railway has reached the place where the company is earning ten per cent. on the capital stock and that the control of the rates is now due to pass into the hands of the government is going to furnish a new and startling problem for the railway magnates of both Canada and United States.

The Canadian Pacific is already one of the most magnificently-equipped roads on the continent. For years it has been in the position that it has had more money than it knew what to do with, and in order to keep it out of the hands of the railway commission it has spent millions upon betterments which were charged to maintenance but which on every other road on the continent were being charged to capital expenditure. Whole sections of the road have been practically rebuilt within the past five years and the amount charged to capital expenditure has been but a fraction of the real cost, the balance being taken out of revenue.

With the control of the rates in the hands of the railway commission, but the control of the railway in the hands of the railway company, this policy of expending revenue for betterments is certain to be carried on, and with every dollar laid out in this way the company is placed in that much better position to handle the service cheaper than before, thereby raising the earnings or lowering the rates.

Paralleling the Canadian Pacific are the Grand Trunk Pacific and the Canadian Northern, and competing with the Canadian Pacific for the transcontinental business and the European-Asiatic business are the two great American systems generally referred to as the Hill and the Harriman lines.

With the Canadian Pacific placing itself in a position to handle the traffic at the least possible cost, and with the railway commission dictator of the rates, it is easy to foresee the time when the competing railways will be placed in a most embarrassing position. Note the fact that the three Canadian roads interlock at practically all the great traffic centres of the west: Winnipeg, Portage, Brandon, Regina, Calgary, Lethbridge, Edmonton and Saskatoon.

If the other two roads are to be compelled to meet a rate set by the railway commission on the C. P. R., what is to happen to the investments of millions in the other two roads with their smaller earning capacity?

And if the Hill lines and the Harriman lines are to be compelled to meet the Canadian Pacific's lower rate on their great transcontinental business, what is to happen to the millions of water injected into the stocks of these two great systems by Morgan and Harriman?

The problem is one which involves a staggering array of millions, and one which the original framers of the C. P. R. agreement, when they put the ten per cent. clause into the contract, undoubtedly did not anticipate, but it is nevertheless a very real problem, and it will be a grisly ghost before railway magnates of the continent before many more chapters have been added to that most fascinating romance, the transportation question.

## JUST PARAGRAPHS

The Journal says that Fels is a disciple of Henry James. Being a Conservative organ, the Journal naturally couples the name of Henry George with Jesse James. The mental shift which made it Henry James is easily accounted for.

The great difficulty with the C. P. R. is that it is making too much money at the present rates, and cannot increase its dividends. This makes it inevitable that the farmers cut a melon. The surprise will probably give the farmers a katzenjammer.

Mr. Fels' offer to do some publicity work for Edmonton is worth considering. If he would do as much for Edmonton as he has done for Auntie Drudge, this city would need a cyclone arrester to stop the crowd.

Dr. Beattie Nesbitt is now travelling under a long list of aliases, probably borrowing his nom de plumes from the lists of constant thought deceased voters upon whom he was wont to depend for the substantial Conservative victories in the Ward.

## JOSEPH FELS.

The man who gives us Social "dope" is author of Fels-Naptha soap. Which he invented that the poor might better their hard lot endure.

For it's a "labor-saving" soap. The washerwoman's pride and hope; But while her lot does now content her, It's sale enriches his venture.

—Contributed.

## THIS DATE IN HISTORY

1793—Louis XVI. of France guillotined in Paris.

1813—Gen. Chas. C. Freeman, born in Savannah, Ga. Died in New York City, July 13, 1890.

1854—Emigrant-ship "Taylor" wrecked on Irish coast near Dublin, with loss of over 300 lives.

1864—German troops, under Marshal Wrangel, invaded Holstein.

1870—Alex. Anderson, first woodcut engraver in the United States, died, born April 21, 1775.

1871—British Columbia legislature passed resolutions favoring the proposal to join the Dominion.

1879—Henry Marjory Hoyt assumed office as governor of Pennsylvania.

1906—King Christian IX. of Denmark, died. Born April 8, 1818.

1910—Japan and Russia refused to agree to Secretary Knox's proposal to neutralize the railways of Manchuria.

—THIS IS THE BIRTHDAY OF Hon. Jules Allard, Minister of Lands and Forests in the Government of Quebec, was born in St. Francois du Lac, Quebec, January 21, 1859, and was educated at Nicolet College. After leaving the bar he studied law and was called to the bar in 1883. After filling various public offices in his native town, including the mayoralty, he was elected to the Quebec legislature in 1898 and was re-elected in the general elections of 1900 and 1904. In 1905 he was elected to the Legislative Council, and was made Minister of Colonization and Public Works. The following year he was appointed Minister of Agriculture and since 1909 he has occupied his present position of Minister of Lands and Forests.

SAYS CANAL IS IMPERATIVE

Berlin, Jan. 21.—Dealing with the question of fortification of the Panama canal by the United States, the Post in an editorial article says the United States is undoubtedly entitled to fortify under existing international law and that fortification is imperative because the canal would inevitably be the chief object of attack in case of war.

**BLACK SUNDAY ANNIVERSARY** St. Petersburg, Jan. 21.—To-morrow is the sixth anniversary of "Black Sunday," when Father, Gapon led a parade of strikers to present a petition to the Czar at the Winter Palace and hundreds were killed by the troops. In view of the recent activity of the Revolutionary organizations in many parts of Europe the authorities are taking elaborate precautions to prevent demonstrations. The prefect of police has ordered the police reserves under arms the whole day and strong patrols of Cossacks and dragons will be stationed in all sections of the city.

**FRANCIS BACON WAS BORN 350 YEARS AGO**

London, Jan. 21.—About this time, as the almanac-makers put it, look out for a revival of the Shakespeare-Bacon controversy. It will be just 350 years to-morrow since Francis Bacon, the possessor of one of the greatest intellects the world has ever produced, first saw the light, in a house in the Strand, the site of which is still pointed out to tourists. The Baconian societies throughout the country, it is needless to state, are preparing for the appropriate observance of the anniversary.

## IN MEMORY OF LATE QUEEN VICTORIA

London, Jan. 21.—The memorial service for Queen Victoria which is held yearly on the anniversary of her death will take place at Windsor to-morrow at 11 a.m. and will be attended by the King and Queen and other members of the royal family. On the morning of January 22 the doors of the great mausoleum at Frogmore, almost hermetically sealed at all other times, are thrown open and a service takes place which the royal family and a few invited guests attend. Then the mausoleum is open to the public for several hours. The memorial service is very beautiful. A special delegation of choir boys go down to Windsor to furnish the musical part of the programme. The finest voices are selected from the various city churches and they are drilled together for several weeks.

**NEW MEXICO VOTES ON CONSTITUTION**

Santa Fe, N.M., Jan. 21.—A special election held throughout New Mexico today the state constitution adopted by the convention which met here last fall was submitted to the people for ratification. It probably will be several days before the complete returns from the election are received, but it is the general belief that the Constitution will be approved by a good majority of the voters. It will then be referred to Congress and to the President, whose official proclamation will be the last step necessary to Statehood.

An exchange recounts the following conversation between a minister and a man whose wife was buried that day.

"My brother," said the preacher, "I know that this is a great grief that has overtaken you, and though you are compelled to mourn the loss of this one, who has been your companion and partner in life, I will console you with the assurance that there is another who sympathizes with you and seeks to embrace you in the arms of unfeeling love."

To this the bereaved husband replied by asking as he gazed into the minister's face:

"What's her name?"

**TEN GUINEAS TO SEE CORONATION**

And then Only from Hotel Windsor—7,000 in Colonial Contingents

London, Jan. 21.—The aggregate representation of the colonial contingents attending the Coronation numbers 2,000 men, five per cent of whom will be officers. The contingents will be on June 19 and last until the 30th.

London hotels have already raised their rates. A Canadian who is a regular visitor to London endeavored to engage a room in a hotel which is on the route of the procession. He was informed that the price would be ten guineas.

**CONDEMNED MAN SEEKS NEW TRIAL**

Swinsboro, Ga., Jan. 21.—The motion for a new trial in the case of Dr. W. J. McNaughton, convicted of murder and sentenced to death, came up for hearing to-day. Dr. McNaughton was convicted of the murder of Fred Flanders and was sentenced to be executed last December. Execution was stayed, however, by a motion for a new trial. Mrs. Flanders, wife of the dead man, was indicted with Dr. McNaughton but was admitted to bail and has never been tried. Flanders died early last June. As a result of gossip connecting the names of Mrs. Flanders and Dr. McNaughton, the body of the dead man was exhumed and a chemical analysis showed arsenic in the stomach and other organs.

## WILL ATTEND CORONATION

Frederickton, N.B., Jan. 21.—Premier Hazen and Mrs. Hazen will attend the coronation of King George in London on June 22. At the present session of the provincial government a letter was read from the governor-general enclosing a dispatch received from the secretary of state for the colonies inviting the premier and Mrs. Hazen to officially attend the coronation ceremonies. They will sail for England early in June.

## BURTON HOLIDAY MAKERS

Three-quarters of a million people have been carried between Burton-on-Trent, (England), and various resorts since 1882, in connection with the annual excursion of Messrs. Bass & Co.'s employees. Nineteen trains took 8,000 of the holiday makers to Blackpool the other day.

In a little triangular space in Connecticut avenue in Washington there is a handsome shrine of the post, Longfellow's. A young society girl of the city was riding past it in an automobile with a friend soon after it had been unveiled.

"Why, what statue is that?" she asked.

"Longfellow's," replied the older woman.

"Oh, I don't see what they wanted to put a statue of him there for," objected the girl. "All he ever did was to marry Roosevelt's daughter."

**DESECRATION OF SABBATH**

Lord's Day Alliance After Montreal Sellers and Western Post Offices

Toronto, Jan. 19.—The third triennial meeting of the Lord's Day Alliance opened to-day, the morning session being a business one, Mr. Murdoch-McGowan, of Montreal, lamented the freedom allowed in that city on Sunday, many businesses being openly carried on, the magistrates being guided by local bylaws, instead of by Federal and Provincial legislation.

The Rev. T. Albert Moore, the retiring general secretary, in his report claimed that the Alliance did not seek to deprive any citizen of his personal liberty. The best way of Canadianizing foreigners was to make them keep the Sabbath. The Alliance was giving special attention to the closing of Western post offices on Sunday, as there was no need for them, as at present they were left to the discretion of the postmaster on the Sunday, besides keeping a great number of clerks at work. In rural communities, where the post office is in the store, and is open on Sunday, there was a great temptation to do other business. Where there was a large store, the post office by mail it was the custom in some offices to keep a certain number of clerks at work on Sunday to look after the mail and to file and prepare orders.

The Western Provincial presidents elected were: Rev. Principal Patrick, Manitoba; D. G. McQueen, Alberta; and G. F. Stapleton, British Columbia. The following Westerners are in the executive: Manitoba, Principal Sparling and J. A. M. Allen; Saskatchewan, Rt. Rev. Bishop Grisdale, Archdeacon Lloyd, Rev. E. J. Chivers, Alberta, W. J. Hunt, Rev. J. Scramere; British Columbia, Hon. W. J. McDonald, and Rev. Dr. Francis Perry. The convention was sparsely attended, there being not more than 25 delegates present.

**YOUNG WOMAN WAS KILLED BY A KISS**

Poisoned Lips of Her Fiance Brought Death—A Maryland Mystery

Cumtland, Jan. 17.—Charles Edward Twigg and Miss Grace Elssner, who on Saturday night were found dead at the home of the young woman's parents, were killed by chewing gum saturated with cyanide of potassium which had been given to Twigg.

It also practically has been proven that Twigg took a piece of the gum, and the young woman was killed by a kiss from him.

The young couple were to have been married today, and now it is believed that the gum had been given to Twigg by some young woman who would rather see him dead than married to another woman.

The authorities assert their belief in the theory that Twigg almost immediately after he had placed the chewing gum in his mouth, had kissed Miss Elssner and that the kiss had communicated the poison to her lips.

The theory is strengthened by the fact that the lips of both were red and inflamed as if they had been burned or bitten.

Little of the poison has been found in the body of the young woman, while the body of Twigg contained enough to kill several persons.

**Shiloh's Cure**

Quickly stops coughs, cures colds, hoarseness, and all other ailments of the throat and lungs. 50 cents.

## TWICE SHIPWRECKED ON WAY FROM NOME

James A. McLoughlin Reaches Seattle After Ten Weeks Full of Adventure

Seattle, Jan. 17.—James A. McLoughlin, formerly foreman of the Wild Goose Milling Company, left Nome October 30, for Seattle and arrived yesterday, after having been shipwrecked twice on the way down.

He left Nome on the whaler Complaner, which went ashore near Unalaska. At that port, McLoughlin and four other men, and after a ding the schooner Allan A. came and picked him up.

His second attempt was even worse one than the first. At Kodiak the Allan A. was wrecked and Mr. McLoughlin, with the remainder of the people aboard the ship, found himself stranded. After some time he and others managed to make their way south and he arrived in Seattle none the worse for his experiences.

Mr. McLoughlin was in Seward Peninsula and other parts of Alaska for eleven years. He finally decided to come out for a winter and thought he had nothing to do but get on the first boat that came along. As things turned out, he took three vessels before he landed in Seattle.

# BUY ACREAGE IN ALBERTA PARK

**SALE OPENS MONDAY at 9.30 a.m.**

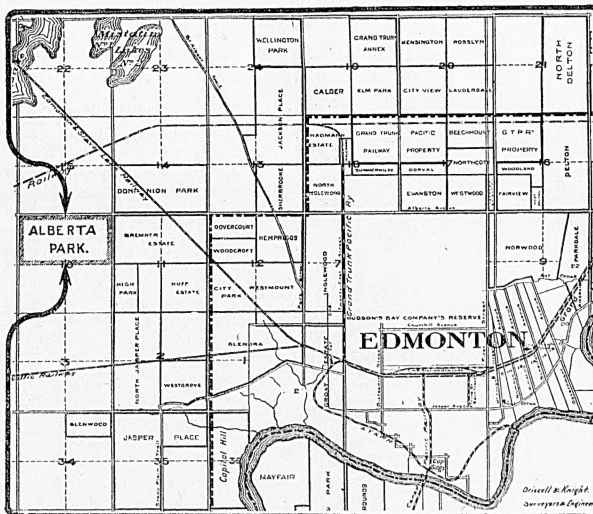

**Blue Prints on View This Afternoon and Evening**

ALBERTA PARK is the Most Attractive Acreage Proposition on the Market Today. Close enough to the City to make its Future certain. Laid out on a plan which makes Re-subdivision easy. Prices Reasonable and Terms Easy.

## A Sound Investment

IT WOULD be impossible to lose money in acreage adjacent to the city limits of Edmonton. Those who have seen the city grow for the last five years know what extension to expect in the next five. New industries, new radials and new railways are coming. The city is growing at a wonderful rate. All this adjacent property will be required in the near future. It is only a question of what property can be bought

**At the Best Price and  
on the Best Terms**

## Some Inducements

ALBERTA Park offers inducements which can not be duplicated elsewhere. The land lies high and dry, is easily drained and well wooded, the ideal site for market garden, truck farm, chicken ranch or suburban residence. The price is surprisingly low for property so close to the city and the terms are as reasonable as could be asked for. Property on Alberta Avenue can be bought now at acreage prices. It will soon be selling at city lot prices.

**The Opportunity Which is  
Presented will not last Long**

## FIVE ACRE BLOCKS=\$250 PER ACRE AND UP

**TERMS—One Quarter Cash; balance, six, twelve and eighteen months**

A DEPOSIT made today will hold for you any block which you may select. Do not delay as this property will go very quickly. First selection of Blocks facing on Alberta Avenue will not last more than a few days. YOU WILL BE WISE TO SECURE YOUR PROPERTY TODAY.

## WHITE CHALLENGE ACCEPTED BY TWO

Daring Defi Draws Double Acceptance—Feed Favorites Have Hockey Fever

Following hard upon "The Batches" acceptance of the White challenge for a hockey match comes a reply from Grant's home on Sixth street. If acceptances keep up at the same rate as they are coming now the White's will have all they can do to find time to eat by reason of the number of games they will have to play.

This has acceptance from Grant's looks like a pretty serious proposition. When you get a bunch of sports like those from which their team will be selected there is going to be something doing all the time. Following is the letter from the Grant's boarding house to the Capital accepting the def.

Sporting Editor Capital

Dear Sir—In answer to the bold def. issued in last night's issue of the Daily Capital, the young gentlemen residing at the residence of Capt. Grant on Sixth street are ready and willing to engage in mortal combat with the White's any old time at all for anything from marbles up to prefer marbles as they would not like to take the money from the White Kids. The latter are kindly requested to look over the list below before going any further with their threats, and to see who will represent Grant's on the ice:

Bert Miller, well-known bowler; Frank Gossell, bowler and baseball player; Walter Blackett, bowler; James Nicholson, hockeyist; Fred Drummond, basketball player; Ewan, hockeyist; Harold McComb, hockeyist; Dee Wilson, well-known rugby player; Bruce Hamilton, curler; Alex McKinnon, hockeyist; George Batz, well-known; William Sturdy, well-known hockeyist; Herb Ingram, also well-known; Snooks Matthews, well-known; and Geo. Mossie, well-known curler; and Hal Morgan, well-known hockeyist.

Now, then, come to it, you White's, and see what is doing or the Scotchman would say: "Start Something."

The other acceptance of the challenge is from "The Batches." Their team will be selected from the following men:

Bernier, Evans, Armour, Kennedy, Crippen, McLean, McLean, Stark, Pahan, Stewart, Jellie, Scrimgeour, Bill, Weller, Bender, Clarke, Whitehorn, Franklin, Robinson, Moody.

If all the teams will now communicate with the deposer of the Capital, stating when and where they would like to play, the deposer will make the arrangements to please them.

## DEACONS vs. LAVOY

Lavoy has challenged the Deacons to play game of hockey on Monday night, Jan. 23. The Lavoy team is said to be exceptionally strong and should give the Deacons some of the hardest runs they will get this season. The Deacons will have their strongest line-up on the ice.

The Deacons have almost a week before they again play a league match and the game will help to keep them in condition for the games at the end of the season with Calgary.

## ANNUAL MEETING OF BALL LEAGUE

Moose Jaw Drops Out—Saskatoon Must Pony Up—Meeting Continues Today

Calgary, Jan. 21.—The board of control of the Western Canada league at the first session of its annual meeting held here this afternoon failed to make much progress towards the solving of the big question that is before them. However the decks were cleared for action to a certain extent.

The following delegates were present: McKenzie, Lethbridge, Gray, Edmonton; Hornbrough, Calgary; Shuster, Moose Jaw; J. J. Munro, Brandon; Blackburn, Winnipeg; Saskatoon did not have a representative.

The report of the president brought in and read showed that there were only three clubs in good standing. The total debt of the league amounted to \$120.60 made up of the following amounts: Winnipeg, \$23.34; Moose Jaw, \$12; Saskatoon, \$43.34; and Edmonton \$14.66. The league is indebted to Eskerton for \$102.98, to Calgary for \$58.00, and to Brandon for \$10.25.

The chief cause of the non-success financially of the league according to the president was the fact that the deposits were not paid. He thought they should be paid right at the start of the season. Last year they were allowed to go unpaid and although the league sent draft after draft to the clubs the drafts were returned unpaid.

The Zimmerman question came in for a discussion. On August 4 E. F. Harrison wired that there was \$400 in the bank for the league on condition that Zimmerman of the Medicine Hat team be sent to them. Mr. Eckstrom stated that he went to Medicine Hat to investigate the trouble, and see if Zimmerman had signed a contract with that town. He had been unable to find any contract and the man claimed he had not signed any, and would not go to Saskatoon. Consequently the deposit was never paid.

There is \$400 due on the sale of Skeels to the Detroit club and Roy Walters claims \$40 salary for the time he was with the Regina team when taken over by the league. Winnipeg claims \$25 for organization expenses for the trip taken by J. Lamb through the west to organize the league.

Mr. Hornbrough claimed that the pooling of hotel receipts was not legal, and not according to the constitutional. The constitution requires that such action can be authorized only by a full meeting and passed unanimously.

President Eckstrom was subjected to considerable criticism. Mr. Blackburn of Winnipeg, stated that he thought the president did wrong in drawing on the trust funds of the league for expenses. He should have drawn on the teams.

Shuster of Moose Jaw stated he would pay the indebtedness of that city himself but that they would withdraw from the league.

The president claimed that considerable difficulty was experienced in getting the results of the games. The scores were anything but prompt in sending him their score sheets. It was this trouble that caused the delay in getting out the league averages.

Mr. Blackburn, Winnipeg, moved that Saskatoon should be warned to expect that they must deposit their deficit to the league in full by tomorrow for withdrawal by the board of control or they would be expelled from the league and their franchise taken from them. Their deficit amounts to \$425.

The meeting is being continued today.

## WANDERERS WIN FROM CUBS AT 'Y'

Dormats Defeat Gym Team in a Fast Game—Keystone-Varsity Game Not Played

The Wanderers defeated the Cubs in the Y.M.C.A. basket ball league last night by a score of 42 to 18. The game was fast and furious from start to finish but the Wanderers had the best of it all the way. Freeman for the Wanderers was the big scorer for his winners, making eleven baskets in the first half and four in the second. The half time score was 28 to 2, but in the second portion the Cubs backed up and added twelve baskets to their score and made four points on fouls.

The line-up was—Wanderers—Freeman, Cranston, Ash, Dingle, and Cornack.

Cubs—Stanton, Butchart, Whitehead, Agar and Engler.

## DORMATS WIN.

The Dormats defeated the Gym team in the second league match last night by a score of 22 to 10. The game was one of the fastest on the floor this season, both teams working the limit. At half time the score was a tie but in the second half the Dormats gathered in a few baskets by fine shooting.

There was a third game scheduled for last night but it was not pulled off owing to a number of the Keystone being unable to turn out on account of the curling.

## EDMONTON WINS FROM CALGARY

Bowling Match at Olympic Alleys Was Very Much Edmonton Last Night

The Edmonton team that played Calgary last night won out in all three games and on the total by 324 pins. It is to be hoped that the Calgary men are better curlers than bowlers or their bonspiel results won't be much better. Their scores were not very high. Following are the scores:

Smith	150	137	145	432
Stockton	168	174	145	478
Robertson	180	135	122	437
West	156	200	103	459
Collins	176	185	105	466
	836	831	754	2421

## ALBERTA COLLEGE WORST VARSITY

The College Won an Easy Victory Over Varsity 11—Score 3-1

Alberta College defeated the Varsity 11 team in an intercollegiate league match by a score of 3 to one last night on the Strathcona skating rink. The game was not a particularly good exhibition of hockey the boys not setting as fast a pace as the fans have come to expect from the matches so far this season.

The college won the Alberta college at the top of the league standing and gives them the best chance in the world of winning the championship.

The college had decidedly the best of the game all the way through and it was only the fine work of Clarke in goal for Varsity 11 that prevented the college from piling up a much larger score. At half time the score was 1-0 for the college.

The line up was:—Varsity 11  
Quick.....goal.....Clark  
Lewin.....point.....Munro  
Shoan.....cover.....Urquhart  
Jackson.....centre.....Carmichael  
Chairs.....rover.....Walker  
Bailly.....left.....Rutherford  
Gilmour.....right.....Mueller  
Referee—Mr. Pedley.

## THE CALGARY DIVISION.

The St. Marys seem to be pulling out at the top of the Calgary division of the provincial league. They defeated the Calgary Athletic club team, Doc Gibson's favorite by a score of 14 to 6. Didsbury also had a tie to say about the standing of the league defeating the much bragged of Lacombe team by a score of 4 to 3.

The standing of the Calgary division of the league is as follows:

was the first coacher. He coached Eve, when she stole first, and Adam when he stole second. When Ike met Rebecca at the well, she was walking with the pitcher. Sampson strack out a good many when he beat the Philistines. Moses made his first hit when

## ANSWER PROTEST

The Deacons have replied to the protest of the Strathcona hockey club. Their defense was given to the league secretary yesterday. The gist of it is as follows: Walter Campbell had in his possession a card which when produced was discovered to have expired a few days previous. A renewal would have to come from Calgary. The Strathcona club agreed that he might play if no objection was made produced before the end of the game. This action was taken with the consent of the referee Doc Gibson.

They claim the second charge was not of a nature to be being filed within 48 hours of the game.

## TO FORM INDOOR SOCCER LEAGUE

Caledonians and Packing Plant Will Give Game a Tryout on Saturday

What about an indoor soccer league? There is a certain number of football enthusiasts who want to start this game and form a league before the winter is over. As a kind of a try out for the game there will be a match between the Caledonians and the Packing Plant team in the Y.M.C.A. gymnasium on Saturday night.

The game has been successful in Calgary and a good league is in a flourishing condition there. The field at the Y.M.C.A. is scarcely large enough but it is good enough for a start. It is proposed to get all the teams that put football teams in the city to the league and so that when the time comes for the outdoor game to start the men will be in good in this district of the provincial league. As soon after the game on Saturday as possible there will be a meeting called to discuss the formation of a league and it is hoped by the promoters of the scheme that all the teams in the city football league will have representatives there.

## ALBERTA COLLEGE WORST VARSITY

## BIG BONSPIEL AT SASKATOON

Eight Big Trophies Are Represented for Competition—Special Rates Secured

The sixth annual bonspiel of the Saskatoon Curling club will be held in Saskatoon from January 25 to February 2 inclusive. Extensive arrangements are being made by the Saskatoon club for the entertainment of visiting curlers and if everything goes as it should the bonspiel will be one of the best in Western Canada.

Following are the officers of the club.

President—F. E. Kerr.  
Vice-President—Chas. Anderson.  
Second vice-president—Robt. McIntosh.

Chaplain—Rev. Wylie Clark.  
Secretary—Treasurer—W. H. Bulmer.

Reception and Executive Committee—D. D. Currie, J. D. Gunn, E. S. Blain, Angus McMillan, A. A. Row, H. L. Jordan, S. S. Cameron, R. T. Logan, A. E. Young, R. W. Shannon.

Umpire—J. W. Wells.

Committee on Appeals—J. B. Straton, H. McKechnie, Peter Albert.

Special rates have been secured from the railroad companies. If there are one hundred curlers present at the special return tickets will be issued by the railroads free upon the presentation of certificates which should be secured from the bonspiel secretary.

There are eight competitions with suitable annual trophies for each besides numerous special prizes that ought to bring out the best curling in the prairie provinces.

## 1. GRAND CHALLENGE

First Prize—James Clinkskill, mayor, offers for competition annually a handsome silver cup, value \$100.

The Gibley's Wholesale Furniture Company of Saskatoon, will supplement this with four brass bells, value \$10, as individual prizes to members of the rink winning the Cup.

## Second Prize

Do not leave Saskatoon without inspecting. Phone 247 and we will call for you to drive over. Office, 127 21st Street.

## Caught a Heavy Cold

IT LEFT HIM WITH A HACKING COUGH

Mr. J. H. Richards, 1852 Second avenue, East, Vancouver, B.C., writes: "Allow me to write a few lines in praise of your Dr. Wood's Norway Pine Syrup. Last fall I contracted a heavy cold which left me with a hacking cough, and every time I would get a little more cold this hacking cough would become a lung splitting one. It kept on getting worse and I kept on spending money buying different cough remedies until a friend asked me if I had ever tried Dr. Wood's Norway Pine Syrup. I told him I was willing to try anything I thought would cure, and on the same day bought two bottles. Before the first one was used my cough began to get much easier, and by the time I had used a bottle and a half my cold was gone. I am keeping the other half bottle in case it should come again but I am quite sure I have a positive cure. Let me recommend Dr. Wood's Norway Pine Syrup to all who suffer from a cough or throat irritation of any kind."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees are on each label; price 25 cents. Manufactured by The T. Millburn Co., Limited, Toronto, Ont.

## DEACON SIGNS STAR CATCHER

Fortier, Well-Known Coast Ball-player, Will Play With Edmonton in 1911

Another star man signed up with the Deacons for 1911 this morning. Fortier is his name and he caught for Seattle in 1909. Fortier has a good record and should be a valuable addition to the Edmonton team. He is a left hand batter with a high average and has an arm that never goes back on him. Last year he played independent ball down in an Idaho town where he had a job which he would not leave for a few months baseball in one of the bigger leagues. As a result of his playing independent ball last year he has to start much lower down the ball ladder than he would have if he had played with Seattle in 1911.

He is a big tall red headed Irishman with a wealth of good humor. He never loses his temper and although he is only a corner has had sufficient experience to give him a thorough knowledge of the game.

Deacon says it is very likely that he will have most of the last year players back with him the coming season. Hickey, Slim Dell, Moose Baxter, Stubb Spencer and one or two others will not be back but the others will all be here.

In addition to the old players

## Don't Wear A Truss

After Thirty Years Experience I  
Have Produced An Appliance  
that Cures Rupture

I SEND YOU ON TRIAL  
If you have tried most everything else  
and failed, write me. I will send you  
my latest success. Send attached  
coupon today and I will send you free my

The above is C. E. Brooks of Marshall,  
Mich., who has been curing Rupture  
for over 30 years. He has written  
me today

illustrated book on Rupture and its cure,  
showing my appliance and giving you  
prizes as dozens of many people who  
have tried it and were cured. It is in-  
stant relief when all others fail. Remember  
I use no salves, no harness, no ties.  
I send on trial to prove what I say is  
true. You are the judge and once having  
seen my illustrated book and read if you  
will be as enthusiastic as my hundreds  
of cures. Write me today. I will send you  
free my latest success. Send attached  
coupon today and I will send you free my

## FROM HOME OF CRUELTY TO HOME

(Continued from Page One.)

was not even fed proper food. Finally  
the neighbors grew so indignant  
at the treatment the helpless lad was  
receiving that they began to complain.  
One day a mounted policeman came  
down to the homestead to investigate.  
The coming of the mounted police-  
man was the beginning of a new and  
happy life for little Paul. He was re-  
tained in charge by the policeman, and  
the parents were subsequently pun-  
ished for their cruelty.

Paul was brought to Edmonton and  
placed with the department of neg-  
lected children. The superintendent got  
into communication with some of the  
boy's relatives and discovered that his  
grand parents were still living in  
Montreal, and well-to-do. A little  
further investigation revealed the fact  
that the grand parents had been at-  
tempting to get traces of the boy ever  
since he had left his home in the east,  
and that they would be only too de-  
lighted to have their grandson back  
with them. The superintendent made  
investigation as to the circumstances  
and the standing of the grand-parents,  
and finally it was arranged that Paul  
should go east to them.

He was placed in charge of a woman  
travelling east, and one day last  
summer he stepped off the train at  
the Windsor station in Montreal into  
the arms of his grandfather, who wel-  
comed him affectionately.

The superintendent has received  
many letters since telling of the boy's  
progress in his new home.  
This case illustrates the fact that  
the department of neglected children  
makes particular effort to have the  
child remain with relatives, if at all  
possible. It is sometimes found that a  
child that has been neglected or aban-  
doned by its parents, has somewhere a  
relative that would be glad to have the  
child in his care.

## ROYAL ST. GEORGE'S SOCIETY

**THE** annual meeting will be  
held on Monday, 23rd  
inst., when the election of of-  
ficers for the ensuing year will  
take place. All members are  
requested to attend this impor-  
tant business meeting at 8  
p. m., sharp.

C. J. LAKEY,  
Hon. Sec.

**MEMORIAM**  
The pun falls on the pencil point,  
The quip is left unsaid,  
The life thought is cast aside  
In presence of the dead.  
The task erstwhile, a pleasant one,  
Becomes a ban imposed,  
While lips that always smiled re-  
sponse  
To what they read are closed.

To know him was world and more.  
His friendship was a balm,  
Whose merry word could turn regret  
Into a hopeful calm.  
He fought his battles fair and square,  
He lived and died a man  
An honest life his highest goal.  
Peace rest thy soul—John Sullivan

Unc Russell and Paddy Sullivan  
have been matched to box in Buffalo,  
January 24.  
Fight fans are wondering if Abe At-  
sell was stalling in this recent bout  
with Joe Coster and Patsy Kline.  
Ad Wogens says that Barling Nel-  
son is a first-class shooter, a sure-thing  
man, a piece of cheese, a ham and a  
saw. Otherwise the Battler is all  
right.

## WOULD VERY OFTEN FAINT AWAY.

Doctor Said That Sometimes He  
Would Never Come Out of One.

Many people may be unaware of having anything wrong with their heart but some little excitement, little exertion, or confinement in an overheated or overcrowded room or public building makes them feel faint or dizzy.

If you neglect the warning the slight feeling of dizziness gives you, and fail to take treatment, there will be a gradual progression to something more serious. There is no reason you should wait till your case becomes desperate before you avail yourself of a perfect cure by using Milburn's Heart and Nerve Pills.

Mr. P. S. Chittie, Wheatley, Co. writes:—"It is with gratitude I tell you Milburn's Heart and Nerve Pills benefited me. I was very weak and run down, and had headache, nearly every day and would very often faint away."

"In fact, my doctor said that sometime I would never come out of one of them. After taking three boxes of your pills I am glad to relate that I have been a number of years since I have had a fainting spell and scarcely have had a headache. Too much cannot be said in praise of Milburn's Heart and Nerve Pills for in me they have effected a perfect cure."

Price one per box, or 3 for \$1.25.  
At all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## HUGE CUNARD IS REPLY TO GERMANY

Britain Will Retain Liner Supremacy With Mammoth Ship Planned

London, Jan. 19.—One of the first things to deal with by the cabinet when it meets after the Christmas holidays will be the many estimates for the financial year 1914-15.

It is not expected that the new naval programme, when it has been approved by the cabinet and submitted to the House of Commons, will meet with very much opposition, despite the fact that the sum of money asked for is certain to exceed even the record sum of the present year. Fresh from the electoral struggle the Commons will be more concerned with such issues as the House of Lords and home rule, and will assuredly be in no mood for a hot dispute over the navy.

It is well to remember that there are many other items of expenditure in the navy estimates than those devoted to shipbuilding and armaments, and that most of these items are automatic; that is to say, they are automatically affected in an indirect manner by increases or decreases in the number of ships or men.

Therefore the addition last year of three thousand men to the active list of the fleet will have its influence on the votes for wages, victualling and clothing, medical services, and education. It is probable, moreover, that the personnel will be increased in the new financial year by another three thousand men, as it is well known that one of the strong points of Sir Arthur Wilson is to have an adequate supply of men for all purposes.

For the Naval Reserve.  
As with the active personnel, so with the reserves. The short service system has been gradually building up the Royal Fleet Reserve, the increased numbers of which will require a larger appropriation. The Royal Naval Reserve can hardly require less money than last year while the Royal Naval Volunteer Reserve has been adding to its numbers continuously throughout the year.

Then there are the non-effective votes for the Admiralty office, half and retired pay, naval and marine pensions, and the like, which have invariably shown increased estimates for the last five years. A very fair estimate puts at half a million the increased expenditure more than last year on these costly items in the navy votes.

Another half million increase will be required for the armaments vote, which provides not only for new guns, torpedoes and ammunition but also for the maintenance of the ordnance stores, wages of the crews of ordnance vessels and all charges connected with the inspection and proof of material.

Building Programme.  
But the main interest must, as always, lie with the vote for shipbuilding, and it should not be difficult to forecast the approximate expenditure under this head in the new estimates. First of all a sum of £28,085 is shown in the financial statement of 1914 as still outstanding in connection with the completion of the Neptune and Indefatigable which will shortly go into commission.

Next there are the eight armored vessels in the programme of 1909, whose completion for sea will absorb something more than four and a half million pounds sterling. Another half million will be necessary to proceed with the construction of the protected

ed cruisers in hand and about £2,450,000 more must be delegated to torpedo craft of past programmes. Floating docks and other sundries will take nearly half a million also, so that the total amount which must be set apart for ships already well advanced can not be less than £8,000,000.

The 1910 programme, which has recently been or is now about to be in hand, will make an exceptionally heavy demand upon the vote, owing to the very small amount set apart for ships last year. The Portsmouth and Devonport armored ships as yet unnamed will require about £900,000 each and the three contract ships at least £500,000 each.

Add to this a million for protected cruisers and the whole programme with its torpedo craft will call for little short of five millions.

For Next Year.  
There remains to be considered the programme of next year, for which the estimates now being framed will contain the first installment. It is suggested that the minimum of our requirements is five battleships and half a cruiser and if two of this number were built in June next two more in the autumn and the last early in 1912 the sum required for them would be £1,450,000. The sums set apart for cruisers and destroyers during their first year of building have varied from £1,200,000 to £1,800,000, and a half a million respectively will be set apart for those to be begun in 1914, while new submarines will take about £1,000,000. Altogether the beginning of new vessels will probably absorb £2,400,000, in which case the total of the shipbuilding vote would be \$14,610,000, as compared with £13,710,000 last year.

From this calculation it seems likely that the new estimates will reach a total of £43,000,000, or two and a half millions over and above those for the current year. There is the possibility, however, that a supplementary estimate may be introduced in January or February, as was done a twelvemonth ago, though this will depend largely, if not entirely, upon the progress made with the ships already authorized.

THE WORLD'S HORSES

It has been estimated that of the 100,000,000 horses in the world about 80,000,000 or four-fifths of the whole number exist in the temperate zones and that nearly all of these are to be found in Occidental countries. The remaining twenty millions, scattered about the tropics, are said to be but poor representatives of the animal as it is known to the peoples of America and Europe.

The horse's carrying capacity ranges from 150 to 200 pounds. The llama can carry from 50 to 200 pounds; the donkey from 100 to 200 pounds; the ox from 150 to 200 pounds; and the elephant from 1,800 to 2,500 pounds.

F. Hodgkinson Smith, painter, author, engineer and professional optician, tells a story showing that Boston boys of the street are like all other boys. He overheard a conversation between two youngsters selling newspapers.

"Say, Harry. What's de best way do teach a girl how to swim?" asked the younger one.

"Dat's a cinch. First you puts yer left arm under her waist and you gently takes her left hand."

"Come off, she's my sister."

"Aw, push her off de dock."

IT IS NOT IN THE BLOOD

Medicine Taken Internally Cannot Cure Eczema. It Is Caused by Germs.

Eczema cannot be overcome by ordinary treatment and the old-fashioned way of dosing the system with drugs. Eczema is caused by a parasitic germ that bores into the skin. It is generally a contagious disease. Until the parasite is completely destroyed and removed, eczema cannot be cured. Fully one-third of skin diseases are in the form of eczema.

We so thoroughly believe that Rexall Eczema Ointment will overcome eczema and all other skin diseases, we unhesitatingly promise to promptly return the money paid for it should it in any way be unsatisfactory to the user.

Because of its remarkable cleansing, antiseptic, germicidal, soothing and healing indices, Rexall Eczema Ointment has a very pronounced value in the treatment of skin diseases, especially where the form of ailment is of the chronic, aggravating sort. We highly recommend it for the dry scaly form or the weeping type, where there is a constant flow of itching-smelling excretion.

Rexall Eczema Ointment is very prompt in relieving pimples, blotches, skin discolorations, ringworm, acne, nettle rash, tetter, hives, insect bites, bites from bees, stings, sores and wounds. It is a pleasant smelling, grayish-white ointment, and is very clearly for use. Two sizes, 25c and \$1.00. Sold only at our store—The Rexall Store, O. Archibald.

Dr. de Val's Female Pills  
A valuable French regulator never fails. These pills are used in regulating the reproductive portion of the female system. Refuse cheap imitations. They are sold in boxes, or three for \$10. Mailed to any address. The Rexall Drug Co., Ltd., Calcutta, India.

## AMERICAN AIR MEN TAKE MANY RISKS

Hoxsey's Accident Not Due to Air Holes, Say French Aviators

New York, Jan. 20.—The cablegram from New York which several American aviators gave it as their opinion that Arch Hoxsey's fatal accident at Los Angeles was due to the air being full of "holes" was shown to a number of French flying men.

Rightly or wrongly, the American aviators have a reputation in France for extreme recklessness. The theory of "holes" in the air is not generally accepted here as a sufficient explanation of the tragedy.

Mons. Maurice Tabouret, winner of Coupe Michelin, who in three days flew 1100 kilometers in the net time of fifteen hours, said:—"I do not doubt that there were holes in the air over the ground where Mr. Hoxsey was flying, but in my opinion they cannot be held responsible for the death of the aviator. All friends who returned from America, express astonishment at the audacity shown by the American aviators pilots, many of whom, they declare, are prone to transform the sport into a sort of acrobatic exercise."

Blames "Spiral Drop."  
"I am told that a favorite trick the American aviators employ to entertain or thrill the public is to descend from a height in a swift spiral rush. That is enough to cause any aeroplane to collapse. It is my belief that the unfortunate Hoxsey lost his life through attempting once too often that daring and dangerous feat."

"I must say that Mr. Hoxsey was one of those whom the French aviators who took part in the Belmont Park meeting declared destined to pay a terrible penalty for his imprudence."

"Personally I am convinced there is no 'hole' in the air. No wind currents, however, violent, would suffice to overturn an aeroplane in the air, or cause it to drop to the ground."

"Holes" in the air, which, in reality are the effect of uneven wind currents, will let a machine down a certain distance, but not right to earth. In Mr. Hoxsey's case either some part of the machine gave way, a strut or a wire, or some imprudent manoeuvre was the cause of the accident."

Views of Mr. Weymann  
Mr. Henry Weymann, an American aviator, who has won fame in France, admitted that "holes" in the air are exceedingly dangerous for flying men. He said:

"There must have been some other condition besides a 'hole' in the air to cause such an accident as the one that happened to Mr. Hoxsey. It may have been that his drop was too precipitate, that when a new cushion of air was reached, the impact or pressure was more than the weakest part of his aeroplane could support, and something gave way. Otherwise, in normal circumstances, a pilot is able to right his machine even after a deep drop into one of those terrible 'holes' in the air."

Too Much Acrobatics  
Mons. Alfred Leblanc, the hero of the Circuit de l'Est and France's principal champion in the race for the Coupe Internationale d'Aviation at Belmont Park, said:

"What I saw of American aviators convinced me of their cleverness and extraordinary courage. The Hoxsey accident certainly cannot be ascribed to a lack of skill and experience."

"In the absence of full details I can only surmise he was executing one of those corkers or other acrobatic manoeuvres, of which Americans are so fond, when he was caught in a 'hole' in the air. It is extremely likely that the mere fact of encountering a 'hole' in the air would cause a fatal accident."

The errors of a "hole" in the air are well known to Mons. Jacques Beland, president of the Association Generale Aeromarine. When in Egypt a year ago he found them one of the chief difficulties to be reckoned with. Sudden changes of temperature and the hot wind from the desert created continually changing wind currents, so that the air was really always full of "holes." He said:

"Holes" Forbidden Recklessness  
"Such doings are certainly most unpleasant and require the utmost prudence, but they need not be fatal, only a stand to reason that if a safe and prudent flyer is troubled by a hole in the air, a reckless pilot has very little chance of coming out alive if caught in one."

"Unfortunately there is a decided tendency on the part of aviators, especially perhaps in America, to indulge in tricks and fantastic exploits

for which aeroplanes are not built and which they cannot support."

"If in a stepheache a jockey were to abandon mouning and finish the race standing on his horse's back the public would say it was a circus performance and not sport. The sooner aviators decide to stick to natural sport in flying, without attempting unnecessary acrobatic performances, the better for them and for aviation."

## STORM HAS ABATED.

Bitterly cold at Regina and All Railway Schedules are Demoralized.

Regina, Jan. 20.—The storm has abated in this district, although the weather is still bitterly cold. Train service remains disorganized and pending the opening of their lines again the Canadian Northern has decried all trains indefinitely cancelled.

The southeast blizzard of yesterday morning which showed up in the northwest and made conditions even worse than before, though bad, conditions today are not nearly so trying as those of the earlier part of the year.

## Needitt Had Three Names.

Sault Ste. Marie, 55th, Jan. 20.—It has just developed that Dr. Beattie Needitt, president of the Farmers Bank of Toronto, wanted for misappropriating the funds and making false reports to the government and who is sought for by the Canadian authorities, arrived here on Sunday leaving Chicago Monday afternoon on the Soo Line. He was well supplied with money and had \$200 in Canadian bills changed into American money.

## ARKANSAS TRAIN WRECK.

Fort Smith, Ark., Jan. 20.—Thirty persons were injured, four fatally, between Hartford, Ark., and Monroe, Okla., today in an accident on a Chicago Rock Island and Pacific train. The injured were taken to McAlester, Okla.

## WINNIPEG MARKETS.

Winnipeg, Jan. 20.—Following are the market quotations for today:

July 101, 100.  
Wheat—No. 1 Northern 94 1/2; No. 2 Northern 91 1/2; No. 3 Northern 88 1/2; No. 4 Northern 84 1/2; No. 5 Northern 77 1/2; No. 6 Northern 72 1/2. Feed 62.  
Barley—No. 2 G. W. 32 1/2; No. 3 30; No. 4 28; No. 5 26.  
Flax—No. 1 N. W. 240.

## British Immigrants.

London, (C.A.P.) Jan. 20.—British emigrants to Canada for 1910 totalled 115,754 persons.

# "I'm Glad FRY'S is as Good For Us, 'Cause Then We Get It OFTENER."

Trust the children to know what drink they LIKE most. It is Fry's Cocoa, every time. And trust mother to GIVE THEM the drink that is BEST for them. That, too, is Fry's Cocoa, without question. Do YOUR children get it OFTEN ENOUGH?

## Good For Grown Ups, Too

Get a Tin From Your Grocer To-Day

Really, you ought to serve Fry's Cocoa OFTENER. It is so thoroughly enjoyed by everyone, young and old, weak and strong, and so thoroughly good for you all, that you ought to use it plentifully. It is so truly economical and easily prepared, too.

The Standard of Quality for Nearly 200 Years

# Fry's - THE Cocoa

The name "Fry" has always represented the highest standard of purity in Cocoa products since the time nearly 200 years ago when Dr. Joseph Fry founded the House of Fry at Bristol, England. Proud as he was of its quality then, he would be immensely gratified at the world-wide popularity which the Fry products have since won because of that quality, to-day even better than ever, because of improved methods. "There is no flaw in its claim to be absolutely pure," say the highest medical authorities in England.

Drink some Fry's Cocoa to-night before retiring, and see how much better you sleep. And serve it for breakfast and see how much better you feel all day, than you do when you drink nerve-shaking coffee or tea. For Fry's is really a food-drink.

More folks are finding out every day how much more delicious and dainty Fry's Chocolates are than any other have ever had before. Not strange, is it, when you realize that Fry's have the advantage of finer materials, greater skill and better facilities than any other maker anywhere? Fry's Chocolates are the reigning favorites in select circles all over Canada. You'll know why when you make their acquaintance. Any good store near you sells them—fresh-made, daintily packed, reasonably priced. Try them at the first opportunity.

## Far More Delicious, Nourishing and Invigorating Than Anything Else You Could Drink

You'll never tire of its rich, smooth, tasteful flavor. Every member of the family will get great good from its regular use. Try it and see!

## Remember: Nothing Will Do But FRY'S

Trade Supplied by J. S. Fry & Sons, Limited, 123 Bannatyne Ave. East, Winnipeg, Man.
